Attachment: Replacement Sheets

REMARKS

Minor amendments have been made to the specification and claims to simply overcome the objections to the specification and drawings to address the objections thereto. The Examiner is respectfully requested to reconsider and withdraw the drawings objections in view of the amendments and remarks contained herein.

DRAWINGS

The drawings stand objected to for certain informalities. Specifically, the Examiner notes that Figure 20B is missing. Applicants have amended the specification to remove any reference to Figure 20A in the specification which has been changed to Figure 20. The Identification of Drawings Deficiencies states with respect to Figures 8 and 10A that "data, a reference numeral, or part of the drawing is truncated or missing." Accordingly, Applicants have resubmitted Figures 8 and 10A for consideration. Applicants note that in Figure 8, reference numeral 310 is pointing to a fastener which may appear to look like a scribbled out arrow. Figure 10A has been resubmitted in cleaner form. Therefore, the Examiner is respectfully requested to reconsider and withdraw these objections.

CONCLUSION

It is believed that all of the objections have been properly traversed, accommodated, or rendered moot. Applicant therefore respectfully requests that the Examiner reconsider and withdraw all presently outstanding rejections. It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and

favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,
